Past Participant Testimonial *"Traveling through lovely rural areas, visiting castles rich in history, strolling through medieval towns, combined with exposure to daily living in a farm area (weekly market, cheese production) provides a lovely way to visit the Loire Valley. What makes this particular trip extra special is the personal attention received and the welcoming accommodations at Galmer. The warmth and attention of the Courault family was something that could not be duplicated on a "normal" tour. It made everything so special."*
