This trip / tour has been unsurpassably wonderful. I am still 'recovering' from our amazing, exhilarating and exhausting tour of Jazz Paris! I would like to say again that Peri did an outstanding job of putting together a really unique and personalized tour. You have been an excellent guide. Merci mille Fois. Thank you for such a great job as tour planner and guide. Even the quirky things made this tour very special. I had a great time.

Through the day visit historic sites, museums and landmarks and trek to the very places where Sidney Bechet, James Baldwin, Josephine Baker, Richard Wright, Paul Robeson, Ada 'Brick Top' Smith, and many others passed their time and made history.
