“La Nuit des Publivores” is an annual night-long program, created more than 25 years ago, and shown in all major French cities. It is usually composed of about 500 TV commercials (out of 20,000 sent form all over the world). This is the fourth “Francophonie” edition, prepared by **Cinémathèque Jean-Marie Boursicot**.

Enjoy 2 hours (with one intermission) of entertaining commercials in **French with English subtitles**. Various French-speaking countries and regions are represented (Belgium, Lebanon, France, Switzerland, French Africa, etc..). This is a unique voyage into the collective memory of the French-speaking world, through commercials that have deeply marked each generation.
